Work Experience

I have been working in an organization(School) as a part time employ in handling their data, creating various design templates and logo for the organization, content writing and designing the creative syllabus for the students and various design related work including video editing.

Project

1. Have made various design projects using Figma and Canva some of which have already been added in my Behance profile.
2. In 28-days industrial training at THDC INDIA LIMITED, I had the privilege of working on an exciting project where we designed an Arduino Gas Detector using the MQ-2 Sensor.

Position of Responsibility

During my academic I have worked on the IoT based project and lead a team of 6 members and have made various programs to run the specifi sensors/detectors
